University of Washington School of Medicine
Seattle, WA, USA

Supported by:

Guest Speaker

DR. RYAN D. CASSADAY, MD

**Associate Professor
Division of Hematology and Oncology
Clinical Research Division
University of Washington School of Medicine
Seattle, WA, USA**

Dr. Cassaday completed his undergraduate and medical training at the University of Wisconsin in Madison.

In 2010, he started Hematology/Oncology fellowship at the University of Washington and Fred Hutchinson Cancer Research Center.

He then joined the faculty at these institutions in 2014, with a focus on acute lymphoblastic leukemia in adults.

Since then, he has led several investigator-initiated and industry-sponsored clinical trials of various strategies for this disease, including novel agents and cellular therapies.

He has a particular interest in developing novel chemotherapy strategies for high-risk populations, including older adults and those with relapsed/refractory disease.

He has served on the National Comprehensive Cancer Network Guidelines Panel for Acute Lymphoblastic Leukemia and the Leukemia Working Group of the Southwest Oncology Group.

Scientific Agenda

Welcome note and introduction of guest speaker
Dr. Amit Khurana, Surat

Guest lecture
Subject

**CAR-T cell therapy for adult ALL:
where are we in 2024?**

Speaker
