## **Dr. Gautam Borthakur, M.D.**

---

Professor  
Department of Leukemia,  
Division of Cancer Medicine  
The University of Texas MD  
Anderson Cancer Center  
Houston, TX, USA

Dr. Borthakur is a Professor in the Department of Leukemia since 2012.

His clinical and research work is focused on improving therapies for acute myelogenous leukemia (AML) and myelodysplastic syndrome (MDS).

His primary commitment is to bring new agents/combinations to the clinic for improving outcome in patients with these diseases.

While doing this, he has taken to the clinic ideas that have emerged out of the works of translational science leaders in the department of Leukemia.

He has opened more than thirty investigator-initiated or industry-sponsored clinical trials in his area of interest and has an active translational research program on autophagy and epigenetic targets, for example BRD4.

# Scientific Agenda

Welcome note and introduction of guest speaker  
**Dr. Amit Khurana, Surat**

---

## Guest lecture

Subject: **Acute myeloblastic leukemia - unusual situations**

Speaker: **Dr. Gautam Borthakur, Houston, Texas, USA**

---

## Interactive session with Indian discussants

**Moderator:** **Dr. Amit Khurana, Surat**  
**Discussants:** Dr. Akshay Shah, Mumbai
