Dr. Alina Gerrie is a hematologist and Assistant Professor in the Divisions of Hematology and Medical Oncology at the University of British Columbia and a Clinician Investigator at the Centre for Lymphoid Cancer at BC Cancer in Vancouver, Canada.

She completed her medical degree and internal medicine residency at the University of Toronto, followed by a hematology and bone marrow transplant fellowship at the University of British Columbia.

She earned a Master's of Public Health degree from Harvard University, where her research included investigating the impact of genetic abnormalities on population-level outcomes in chronic lymphocytic leukemia (CLL).

Her other academic interests include the investigation of novel therapeutics and cellular therapy for CLL and lymphoma.

She is a member of the Canadian steering committee for national CLL treatment guidelines and is a member of the International Workshop on CLL Global Partnership Subcommittee, which aims to improve outcomes of CLL patients globally by supporting clinical and research training and local capacity building.
