The Hematology Department
University Hospital of Nantes
France

Dr. Philippe Moreau is a Professor of Clinical Hematology at the University Hospital of Nantes, France

He is also the Head of the Translational Research Program in Hematology and Oncology, at the University Hospital of Nantes, France.

He has over 20 years' experience in clinical hematology and has led many pivotal clinical studies.

His interests are focused on multiple myeloma (MM) and its treatment with high-dose therapy and novel agents, including cell therapies.

He has been the Chairman of the Intergroupe Francophone du Myélome (IFM) since 2020 and Vice-President of the International Myeloma Society (IMS) since 2019.

He has been a member of the steering committee of the International Myeloma Working Group (IMWG) since 2013.

He has served as the Principal Investigator for many international randomized phase 3 clinical trials evaluating proteasome inhibitors, Immunomodulatory drugs (IMiDs) or CD38 antibodies.

He participated in the study of Idecabtagene Vicleucel (Abecma), that received FDA approval in March 2021 as the first genetically modified autologous chimeric antigen receptor (CAR) T cell therapy for the treatment of relapsed and refractory MM.

In 2018 Professor Moreau received the Robert A. Kyle lifetime achievement award.

He is a member of the “Integrative Oncogenomics of the pathogenesis and progression of multiple myeloma” team of CRCINA, directed by Stéphane Minvielle.

He is very frequently invited speaker at international hematologic oncology meetings.

He has authored or coauthored more than 400 peer-reviewed articles that have appeared in high impact factor journals including, the NEJM, JCO, The Lancet, The Lancet Oncology, and Blood.

He is member, Editorial Board, JCO, Blood, and Blood Cancer Journal.
