## Dr. Jagdish Prasad Meena

Additional Professor  
Division of Pediatric Oncology  
Department of Pediatrics  
AIIMS, New Delhi

Dr. Jagdish Prasad Meena is a faculty member in pediatric oncology with expertise spanning clinical care and research.

His research focuses on genomics in leukemia, methylation studies in pediatric leukemias and sarcomas, and AI-based tools for non-invasive diagnosis.

He has served on national and international expert panels, including the International Consensus Committee on Pediatric Adrenocortical Carcinoma, as well as advisory groups to the Government of India.

In these roles, he has contributed to policy recommendations for vaccines and strongly advocated the inclusion of HPV, typhoid, Hepatitis A, and next-generation BCG vaccines in national programs.

He has authored over 80 PubMed-indexed research publications and actively collaborates on multicenter studies.

He is currently the principal investigator of multicenter research projects—including randomized controlled trials and an AI-based prediction model.

His work aims to bridge clinical medicine with technology to improve early diagnosis and outcomes in children with cancer.

Alongside research, he is dedicated to teaching and mentoring medical students, residents, PhD scholars, and DM fellows.

He is widely respected for combining scientific rigor with compassionate and ethical patient care. He continues to advance pediatric oncology through innovation, collaboration, and academic leadership.
