- He obtained his PhD in Experimental Hematology from the University of Rome Tor Vergata, Italy, and has over 15 years of experience in leukemia and cancer research.
- His laboratory at ACTREC focuses on translational cancer biology, with expertise in molecular diagnostics, single-cell genomics, and CRISPR/Cas-mediated genome editing.
- Dr. Hasan has published over 50 peer-reviewed articles in high-impact journals, contributing significantly to the understanding of acute myeloid leukemia, acute promyelocytic leukemia, and breast cancer.
- His work has led to the development of RAPID-CRISPR, a highly sensitive diagnostic assay for PML-RARA detection, and to the preclinical advancement of a novel CDK7 inhibitor for which phase-1 clinical trial is under discussion.
- He has received several prestigious recognitions, including the ICMR International Fellowship, Ramalingaswami Fellowship, and multiple awards from the Society of Hematologic Oncology and the European Hematology Association.
- Dr. Hasan actively collaborates with clinicians and industry partners to translate laboratory discoveries into clinical applications.
- He has supervised MSc, PhD, and postdoctoral researchers and has been teaching doctoral courses for over a decade.
- He also serves on many institutional committees.
